Endoscopy standardised reporting of neuroendocrine neoplasms (NEN)

(applicable to gastric (gNEN), duodenal (dNEN) and rectal (rNEN) NEN)

Known (suspected) NEN:

Affected organ:

Multiplicity:

Non neoplastic surrounding mucosa (field active only in gNEN)

Assess gastric pH @ start

Mucosa:

Atrophic:

- *If atrophic:*

Vascular translucency:

Nodular:

Biopsy *(please select one or more options)*:

Antrum x2 (lesser curvature x1, greater curvature x1)

Incisura x2 (two sites)

Corpus x4 (lesser curvature x2, greater curvature x2)

Lesion:

Location of lesion:

If stomach:

Distance from incisors: cm

Distance from Z-line (esophagogastric junction):   cm

Description:

Curvature:

Anterior/Posterior wall?

If duodenum:

Location:

Curvature:

Anterior/Posterior wall?

If rectum:

Distance from anal verge: cm

Anterior/Posterior wall?

Appearance of lesion:

Number of lesions overall:

Shape of lesion(s)*:

Lesion 1:	Lesion 2:	Lesion 3:
Size:	Size:	Size:
Biopsy:	Biopsy:	Biopsy:
Lesion 4:	Lesion 5:	Lesion 6:
Size:	Size:	Size:
Biopsy:	Biopsy:	Biopsy:

*If you need to report more lesions, please adapt the form accordingly.

Changes in comparison to previous exams:

a. New lesions:
  i. Size:
  ii. Number:
  iii. Localisation:
b. Existing lesions:
  i. Size:
  ii. Number:
  iii. Localisation:

Chromoendoscopy performed:
